

Centrala murala CGG - 1K 24/28

Tehnologia Wolf a sistemelor de incalzire pe gaz

domeniul de capacitate:

CGG-1K	-24	-28	
Capacitate	9,4 - 24	10,9 - 28	kW

- eficienta ridicata
- instalare si intretinere usoara
- diagnoza rapida si usoara
- gaz natural de tip H si GPL
- interfata usor de utilizat
- acces usor
- preparare instantanee ACM
- camera etansa pentru tiraj fortat
- fucntionare usoara la pornire

Informatii generale

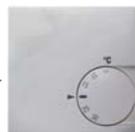

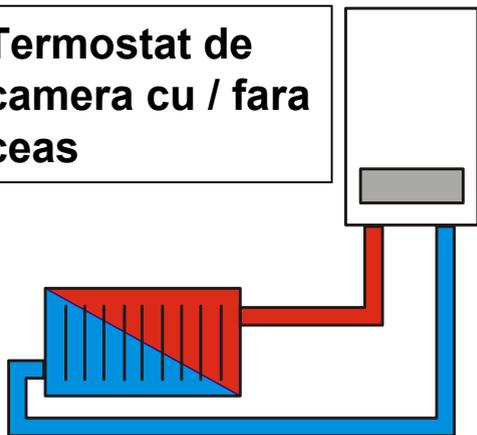

- **“Fabricata in Germania“
(Calitate Wolf - Mainburg)**
- **constructie robusta**
- **cantareste numai 40 – 42 kg**
- **nu necesita spatiu lateral pentru instalare**
- **se incadreaza in familia de produse Wolf
(are acelasi aspect ca si CGB)**
- **depozitare avantajoasa pentru distribuitori**

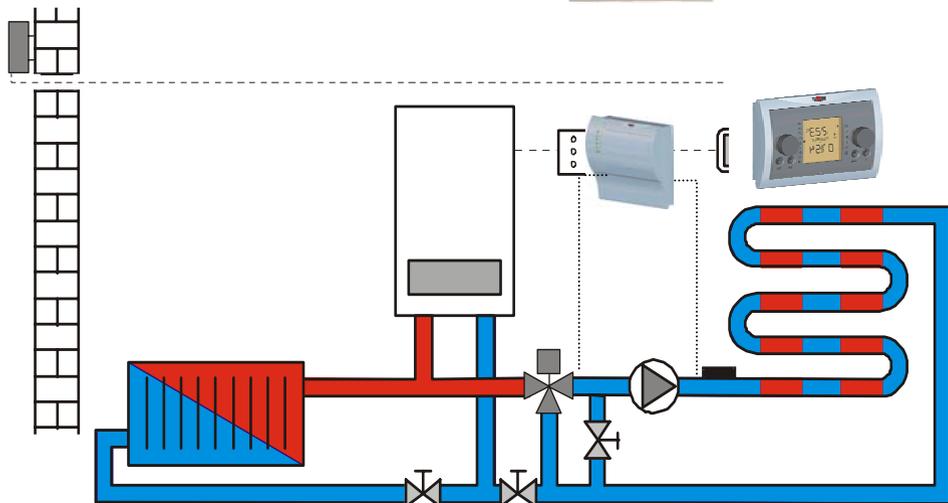

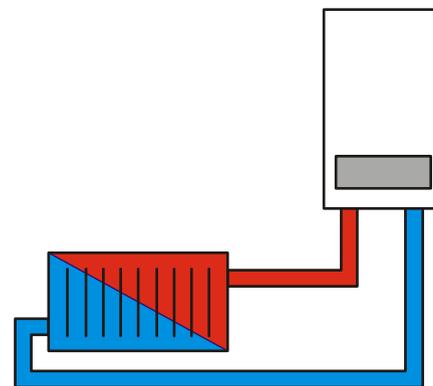

Modalitati de control

Termostat de camera cu / fara ceas

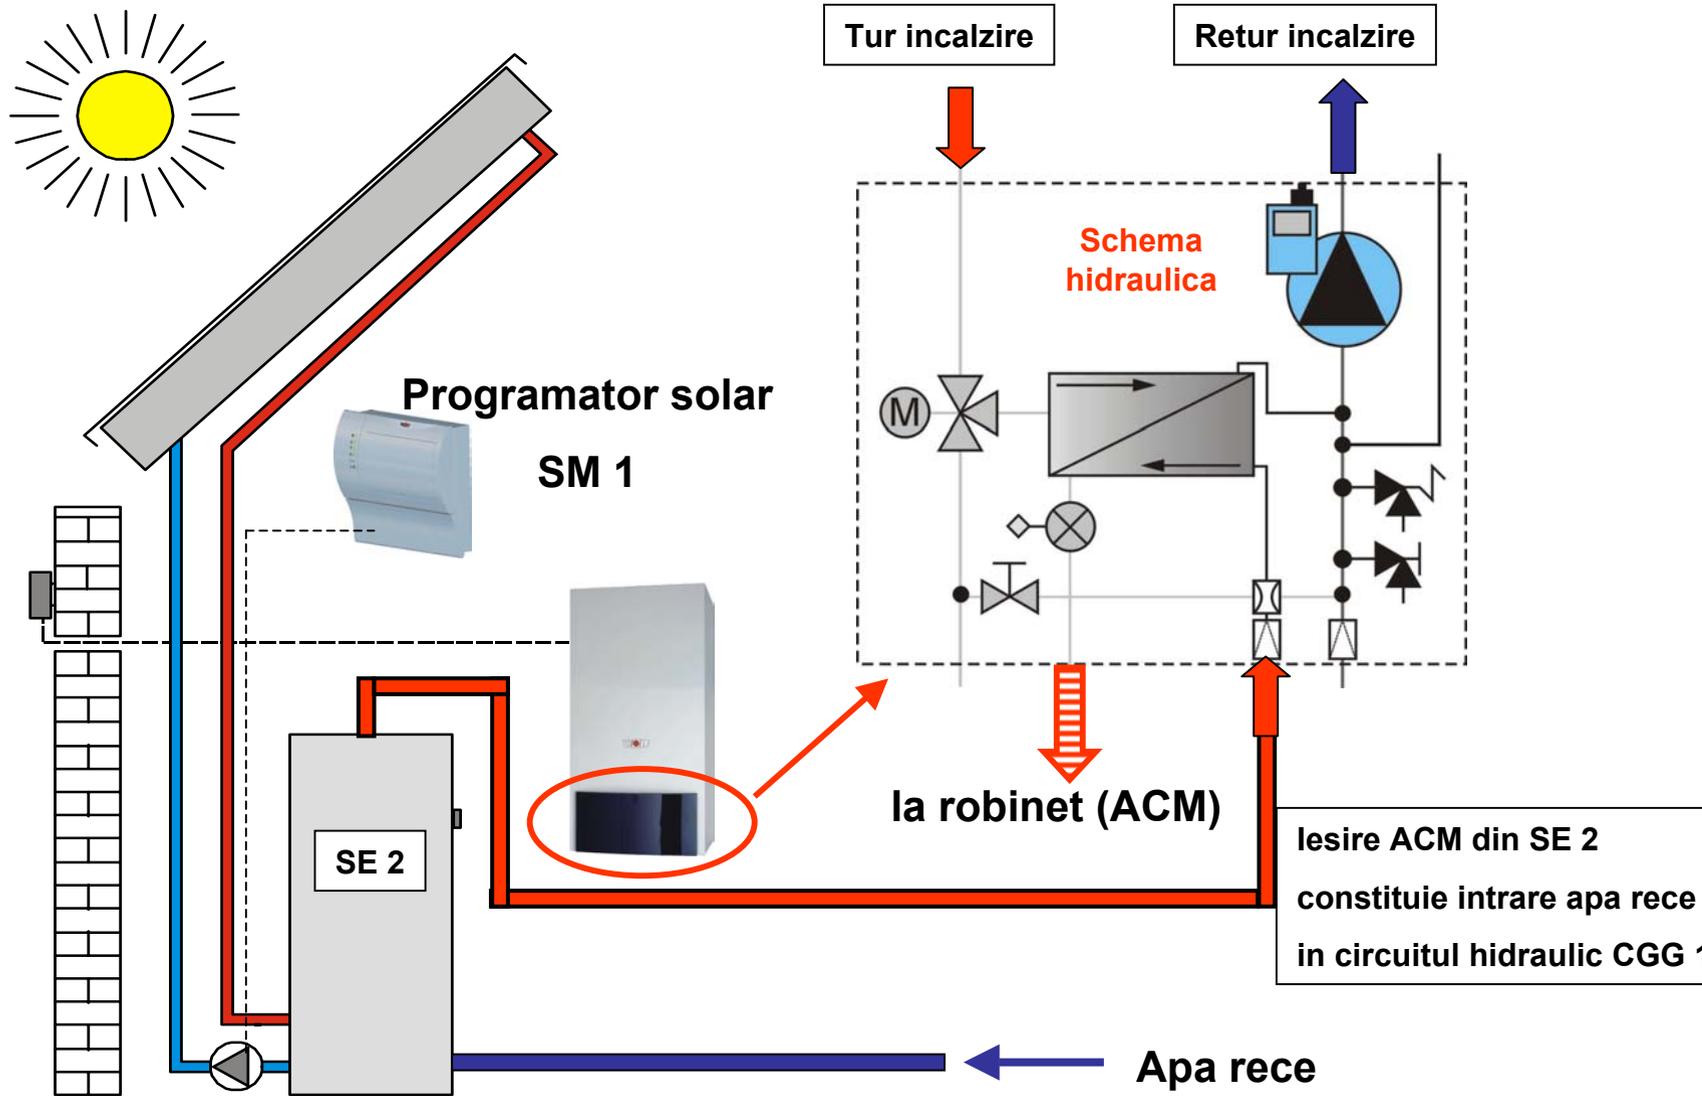

Regulator cu compensarea temperaturii exterioare cu module de programare BM + AWT

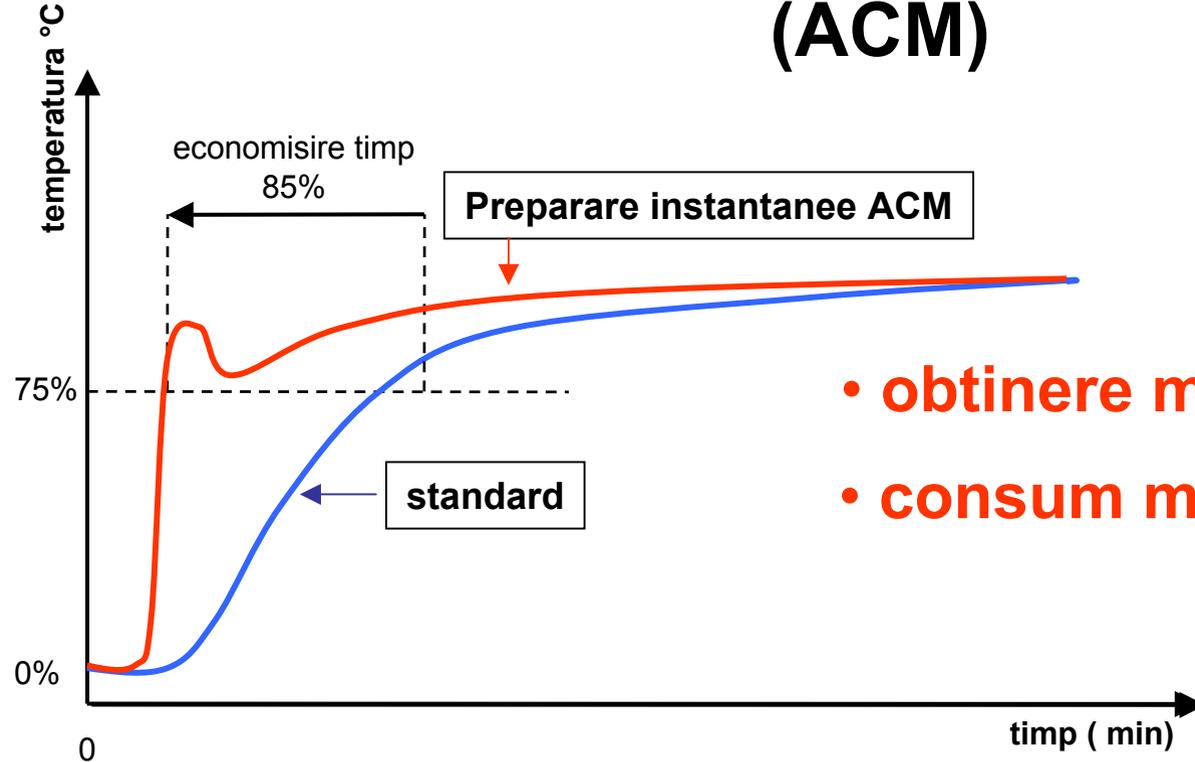

Regulator cu compensarea temperaturii exterioare cu modul de programare BM si modul mixt MM; extensibil pana la maxim 7 MM

Conectare la circuitul solar

Controlul apei calde

Preparare instantanee apa calda menajera (ACM)

- obtinere mai rapida a apei cald
- consum mai mic de apa

Componente de inalta calitate

- pompa Grundfos
- kit hidraulic Grundfos
- ventilator Fime/EBM
- supapa de gaz SIT
- electrovana de gaz SIT
- arzator Worgas
- schimbator de caldura pentru apa calda fabricat din otel inoxidabil

Alte avantaje

- **Sistem evacuare gaze arse**
- **concentric; lungime maxima de 5 m**
- **imbinare prin mufe (-> instalare rapida)**

- **Economisire de energie**
- **eficienta in functionare conform CE: randament > 93%**
- **pompa cu 3 trepte Grundfos (consum redus de energie)**
- **putere adsorbita 120 W**
- **eficienta energetica** ★★ ★

- **Emisii**
- **NOx-clasa 3**
